\*physical kit for in-class/in-person programs

### What will students do and learn?

- Match the necessary skills to be successful in different jobs
- Identify the best way to communicate in different scenarios
- Use collaboration skills to build a tower in a team building activity
- Design a wireframe for a new app to solve for a current problem
- Identify goals for the future and the skills that will help achieve them

“

So many of the kids came up to me and thanked me saying things like: “I understand what a growth mindset is” and “I know how to locate my skills and what I still need to learn”. This is a valuable program and the content is fantastic.
